GRAVER IT IS GROWING

Strike Malady Which is Afflicting tee Nation.

CHICAGO IS NOW THE CENTER.

Force Must Se Massed in Extraordinary

CHICAGO, July 7 .- Six dead and an indefinite number of injured is the record of casualties in the strike conflicts in Chicago for the day. The developments sday went far to convince all thinking people that the gravity of the the authorities or the people at large.

Persons who were here during the

railroad riots of 1877 and who saw the ore than 50 bronzed and husky regulars from the plains marched down Madason street and went into camp on the lake front, wagged their heads knowingly when three times that number were ordered from Fort Sheridan, comprising the three arms of the service, and said they would make short work of Mr. Dobs' followers. But after 12 hour of as patient and persistent coolness and bravery under trying circolness and bravery under trying circommances as was ever seen, these same
citzens and olicers in command were
forced to admit that things were not as
they were in 1577, and that it was still
a long mark to peace and the resumption of unimpeded traffic on any of the
railroads running out of Chicago.

The developments of the night and
those of the day have but confirmed the
conviction that nothing short of an
overwhelming armed force, with instructions to shoot to kill, can settle the

structions to shoot to kill, can settle the trouble; or, as Colonel Crofton put it, it has ceased to be a mere movement of troops and has become a campaign,"

The local and state authorities have awakened to the critically grave interests makely, which is afflicting the nation generally, but Chicago in particular, and are taking measures to apply adequate remedies. The city police force has already been recruited up to over 3,000 men, and by order of Governor Alizeld, two brigades of state militia have been ordered here to aid in queling the disturbances. etions to shoot to kill, can settle the

mattin anye open ordered mere to aid in quelling the disturbances. At the nation's Capitol also the fact is recognized that the prevailing conditions are entirely out of ordinary and that provision must be made for such a mass-ing of aghting men as has never before been seen together in the history of this nation in time of peace, if the authority and dignity of the federation and the processes of its courts are not to be laughed to scorn for an indefinite time. The strike infection is so widespread

would be miwise to withdraw any more regular neops from the county west of Chicago. It is therefore in contempla-tion, should the forces, federal, state or municipal, already gathered here, be un-equal to the task of restoring order, to send here the 10 companies stationed on the Canadian border in the state of New York, with the reserved intention, if

creemstances demand it, of exercising his right to call for 20,000 men from the crack militia regiments of New York and Pennsylvania.

The day in Chicago was one of constant alarms and calling for police, deputy marshals and soldiers, here, there and everywhere throughout a wide and everywhere throughout a wide numerous instances to cars, switch attempt to fire a part of the great Armour packing plant; in fact, at one time the incendary blazes followed each

on the the blockade by sending trains out. Yesteday they recognized the furility of that method of produce and practically gave up any attempt at outward movement. But there were some incoming passenger trains on several of the roads together with a few of the regular milk trains. Between these two classes of trailie the strikers managed to make traple for nearly every year. classes of truffic the strikers managed to make trouble for nearly every road running in a southerly direction. The Fort Wayne, the Lake Shore, the Michigan Central, the Baltimere and Ohio, the Illinois Central, the Alton, the Panhaudle, the Western Indiana, the Rock Island, the Monon, all experienced difficulty in greater or less degree at some or all of the time during the day.

The frick of scaring the rew from a train, cutting the engine loose, running it up the Erack, opening the threttle and letting it run full tilt back upon the standing train, was a new one and of a character likely to be imitated. The stoning of incoming trains was a com-

stoning of incoming trains was a com-mon pastine with the mobs, and several

that it was at first reported that he was dead.

The assaults of the mobs, however, were not met with the passive resistance which characterized the course pursued Thursday. On two occasions, at least, their attacks were met with accurately aimed lead. During a riot in the forence over an incoming milk train at Kensington, a deputy United States marshal shot and killed two strikers, and during the afternoon the dapaties guarding an incoming Baltimore and Onio passenger train, replied to the volley of shots and stones which the strikers showered a upon them by turning their revolvers loose, killing four of their assailants and wounding a number of others.

four of their assailants and wounding a number of others.

A new and grave feature was added to the situation in the afternoon, when a meeting of representatives of all the bodies of organized labor in the city, after a protracted discussion, in which a general sympathy strike was favored, appointed a committee of three with full power to act, and, at the same time,

called a meeting of all organized labor for next Sunday to ratify their action. Late in the afternoon the Second regi-

ment, state militia, was ordered to the stockyards,

Of the situation in general, it may be said to have been broadened and strengthened in its grip. The most significant feature of it is the carrying of the strike east to Cleveland, tying up all the councetions of the seaboard Trunk lines there, with the promise that within the next few hours it will reach the Trunk lines themselves, and so practically reach the Atlantic seaboard by tying up the railroads at Buffalo. Thus the srike would be extended from occan to occan.

There is no notable relief at the points heretofore placed under embarge, and

heretofore placed under embarge, and the situation at Kansas City was com-plicated by the tying up of the Fort Scott road, thereby involving another southwestern line southwestern line.

The Pacific coast remains in paralysis

The Fronce coast remains in puralysis from which there are no indications of reliof, and a significant note comes from Scattle, Wash, where the stevedores were called out by the chief of the Knights of Labor to prevent the unloading of a steamer from San Francisco, indicating that Grand Mascer Workman Sovereign's promise to Dobs to aid him in every possible way was not merely in every possible way was not merely for effect.

The Order of Railway Conductors Do Not

Denver, July 7.—The Order of Raiii way Conductors have begun war upon E. V. Debs, his order and the sarke. The first step will be to expel from the order all mombers who have gone out on a strike on the order of Dobs. This decision has been arrived at because of several reasons. First, members of that order who stopped work violated the laws of the order; second, by their acts the striking members have weakened the influence of the order which has always been so strong that it has never been called upon to strike in order to gain a desired point. It is intended to punish the disobedience and to stop the weakening of the order's influence. Following the examples of the engineers of the Douver and Gulf system; the conductors of the Santa Fe, it is said, have requested to be sworn in as deputy United States marshals and armed. Their desire will be complied to the first desire will be complied. The flag all with the flag and surface, the flower will be complied to the flower was a last find at the formal tracks containing from 1,000 to 2,000 in the conductors of the Santa Fe, it is said, have requested to be sworn in as deputy United States marshals and armed. Their desire will be complied to the flower was a first the front tracks containing from 1,000 to 2,000 in the conductors of the Santa Fe, it is said, have requested to be sworn in as deputy United States marshals and armed. Chicago, July 7.—Richard Zoff, a Baltimore and Ono employe, also a dep-uty United States marshed, was killed at the Grand Central depot yesterday appains by the appaleural analysis. the incendary blazes followed each other in each quick succession that the fire department was put to traits to care for all of them. To add to the gravity of the situation, it was found that the strikers were interfering with the police, railroad and fire alarm telegraph system, and in one or two instances policemen who were using the police telephone calls were stoned.

In general, the order of things, compared with that of Thursday, was reversed. Then the railroads were trying to break the blockade by sending trains out. Yestel Cay they recognized the farms of the strikers had gained an ontrance into the room and were responsible for the shooting.

Bridge Set on Fire.

DENVER, July 7.—There is but slight change throughout this and adjoining states as regards the American Railway union strike. Especially is this case on the Union Pacific. Generally the conditions are slightly more favorable to the ruliroad companies. A bridge was found burning on the Middand near Newcastle, but it was repaired so as to Junta the yards were cleared of passenger trains for the first time in nine days.

Clover Leaf Tied Up. Bridge Set on Fire.

Clover Lenf Tied Us. FRANKFORT, Ind., July 7 -Acting on in order from President Debs the Clover an order from President Dens the Clover Leaf employes, including train and shopmon, quit work here yesterday, and within a tow homs the Strike was gen-eral from Tolodo to Charleston, Ills. A couple of mail trains, manned by offi-cials, were allowed to leave the yards, but all other trains are field up.

Expecting All K. of Les to Strike. Expecting All K. of Les to Strike.
PHILADELPHIA, July 7.— John W.
Hayes, sometary tronsmer of the Knights
of Labor, said lato tust night that he
expected, at any hour to receive word

Dropped Pulimans. Montreat, July 7.—The embargo which was put on the Canadian Pacific railroad from London west to Chicago on account of their resing Pullman cars in addition to their own sleepers, was raised Friday upon the company agreeing to do without the Pullmans.

Train Wrecked. DULUTH, July 7.—The Omaha night train was wrecked in Superior. A switch was chained and the engine and two conches ditched. The fireman was struck by a brick thrown by someone in the crowd and two of his ribs broken.

It is Unhesitatingly Applied in South Chicago.

GREAT DESTRUCTION DONE.

Chicago. Fires are raging in every direction among the numerous railroad yards. Hundreds of cars and tens of thousands of dollars' worth of merchandise have already gone up in smoke or been carried off by the now frenzied mobs of rioters. Incendiarism is ram-pant. Alarm after slarm has followed

ant. Alarm and.

n quick succession.

Reports of fresh outrages, fires, have followed each other with startling rapidity, being confined, however, principally to railroad rolling stock and buildings, against which thus far the greater part of mobs' fury has been directed.

The first blaze started among some culcibly commanicating to other tracks and with long lines of ears, many control with the property of the pairs and ear building and of track laying. A large and somewhat lasting repairs and ear building and of track laying. A large and somewhat lasting repairs and ear building and of track laying. A large and somewhat lasting repairs and ear building and of track laying. A large and somewhat lasting repairs and ear building and of track laying. A large and somewhat lasting repairs and ear building and of track laying. A large and somewhat lasting repairs and ear building and of track laying. The demand

at the Grand Trans yards at Eisten 500 box-ars were burned. The flag shantles and other ratroad property was also distroyed. While directing the movement of the Eleventh batcalion at this point Fire Marshal Fitzpatrick was seized by the thoroughly frenzied mobserect by the thoroughly frenziet mob of firebugs and thrown into a pond from which he was rescued by the police, more dead han alive. Everything it at this point is a total loss.

At Hyde Park, near the world's fair grounds, the ashes of 10 cars are now smouldering, and word has just come in that after numerous efforts the mob has succeeded in firing the Highest Control.

camed our an memoers of his ciganization in the state of New York, and that he will establish headquartens at Buffish for the management of the strike. It is also reported that Dobs and Soverfeign have left for Buffalo, although it is demed at the strikers' headquarters.

Shor By a Woman.

Chicago, July 7.—Herbert Letzers, a striking Chicago, Burlington and Quincy employe, was shot and instally killed in the afternoon by Mrs. William J. Lehmann. Lehmann took the place of a Chicago, Burlington and Quincy fireman who went on a strike. Yesterday afternoon, accompanied by his wife, he started to go to work. The complement Letzers, who immediately entired into conversation with them, his object being to persuade Lehmann to join the strikers. A fight ousted and Lehmann. Thought and toughs, and util as much as a manu's life is worth to interfere with them.

The aggregate of the issess to the rail-strikers.

into conversation with them, his object the being to persuade Lehmann to join the strikers. A fight outsted and Lehmann threw Letters down. During the progress of the fight Mrs. Lehmann stood looking on, but when she saw her happened struggling on the ground with his assultant she lost her self-centrol and, drawing his revolver from his hip pocket, she fired a shot at the near. The builet struck Letters in the heart. He died instantly. wrecked and disabled; miles of tangled wires and prostrate poles litter the ground.

whes and prestrate poles litter too ground.

Telephone, telegraph, electric light and are alarm when are now the especial objects of attack, the plugging of fire alarm loves constituting a new and doubly dangerous element in the tremandous wave of incendiarism now sweeping over the southwest section of the city, preventing, as it does, notice bong received of the starting of fire only and only in the usual buttine.

The house had bardly assembled before the poor water supply in these outlying districts, a fire has attained such houdway that it can not be stopped except through lack of further material or which to feed.

The house had bardly assembled before the poor water supply in the spaker laid before it the bills on the table awaiting reference. The thind bill was the hardly assembled before the poor water supply in the spaker laid before it the bills on the table awaiting reference. The thind bill was the hardly assembled before the spaker laid before it the bills on the spaker laid before it the bills (\$1,9,038; p.ad railroads, \$25,878. These figures cover Ohio business only.

A slight Difference.

Columnes, O., July 7.—A table of prices paid for goods at the state insine floor of the house.

stopped except through lack of further material on which to feed.

Only one residence has been burned thus far as a direct result of the incondaries' work, and that one in the stockyards distured, and business buildings have escaped altogoffer; but the wanton destruction of railway property continues unchecked and with increasing destructiveness. The maddened mobs now worked up to the highest pirch of fury are paralleling the scenes of the commune and at this hour it appears as though nothing short of the miraculous can prevent an armed demonstration against them and the sacrifice of many lives.

To illustrate the tactics resorted to by the incondiaries to hamper the work of the fire department, empty cartridges were forced into the keyholes of the fire were forced into the keyholes of the first alarm boxes, firemen were knocked down with stones and bricks, and while working at fires the horses of the de-partment were stolen. The mob showed much method in its incendurism, and hundreds of cars were ruffed and their contents carried away before the torch was applied. The loss in the Pan-handle yards alone is estimated at \$1,-200,000.

Hot Springs, Fuly 7.—A cloudburst occurred in the canon just above town, followed by a tremendous hallstorm. Drifts of hall six feet deep were lodged

R. G. Dan & Company's Weskly Raview of

Combany's weekly review of trade says: The interruption of business by the railsigns, whether bright or gloomy, have little value. The scente has pussed the tariff bill, but in such shape that no one ventures to risk much on its final pas-sage without further alteration. Speculation in products has turned largely many for products has turned

largely upon temporary uncertainties, but meat products have been higher but meat products have been higher, with a threatened famine Lett and the Ing the Torch to Railroad Property.

President Cloveland's Reply. WASHINGTON, July 7.—The letter of Governor Alsgeld came over the wire to the White House and occupied a considerable time in transmission. It was nearly midnight when the following reply of President Cleveland was given to the press:

Springfield, IIIs: While I am still persuaded that I have neither trans inted my authority or duty, neither trans inted my authority or duby, in the emergency that confronts us, it seems to me that in this bour of danger and public distress discussion may well give way to active effort on the part of all authority to restore obedience to the law and to protect life and property.

GROVER CLEVELAND.

VANCEBURG, Ky., July 7.—General Kelly and his army of commonweaters are stranded at Moore's Landing, 10 miles above here, where they were left by the captain of the towboat Connell. Kelly refused to give up possession of the barge and the captain went to Cincillation of the barge and the captain went to Cincillation of the barge and the captain went to Cincillation. ciunati to secure the assistance of United States marshals. The army is in a destiente condition and have no food. They are foraging off the farmers and causing great uncasmess among them.

Lexington Ky., July 7.—John Cassady, the young painter, who wronged 15-year-old clin Sloan, has been arrested and brought back to Lexington. Upon arriving hore he concluded to marry the girl, which he was allowed to do. They were married in the clerk's office.

note of this

and ordered reported to the House According to the provisions of the bill the United States is to have a first lien on the canal so that it cannot be lost through the government guarants of bonds

The late President Carnot made a good income tax argument when he

"We must reform our morals at the same time as our laws. Those who enjoy a superfluity must form a larger idea of their social obligations and resign themselves to assuming a somewhat heavier portion of the pubhe charges in order to relieve those who buy bread for their families with a daily wage '

The Toledo Record has the following complimentary notice of the Judge of this District

"There was a time when 'Cale missed going to Congress and then eschewed politics for the law Since then he has twice been elected Common Pleas Judge and is now the Democratic candidate for Circuit Judge in the big Third circuit Judge Norris is a very able man"

It is a common thing to hear a Re publican remark that the Democrats are going to tax sugar after the Republican made it free The Republicans have never made sugar free It is true that in the McKinley bill raw sugar was put on the free list, but who eats raw sugar. The same bill that made raw sugar free gave the Sugar Trust sixth tenths of a cent a pound ' protection" on refined sugar, and provided for a heavy bounts to be paid from the pockets of the peo ple to the comparatively few persons that raise sugar in the United States

Congressman W A Stone, of Pennsyivania, has presented a bill to the House which is intended to discourage anarony in this country. The States brought sunt for it as wrongfully specific for such diseases as locomore measure provides that any person or held by the con pany and wor. Here attack partial parallels, St. Vitus any society or organization in this or any foreign country which has for its object the destruction of property where the loss of life is probable, shall be deemed an anarchist And person who shall upon conviction be adjudged an anarchist by the judge of a circuit or district court, where the offense was committed, shall be sentenced to death by hanging Mr. Stone's idea is to punish an anarchist or poor, royal or otherwise before he has an opportunity to commit murder or destroy property

The question of what to do with her superfluity of educated men is puzzling Germany, and pressing for the highest rank, clid in the cost tobe in an old book of prints, and thus here here in America. The solution here here in America. The der, then, that her majesty excites standard of professional merit has with curiosity, whenever she travels been materially lowered by the influx of incompetents—gentlemen with purchased capacities The ex- pass cess of educated gentlemen in this country, is also in many other ways. swelling the ranks of the army or those who propose to draw their subsistence from the profits of labor that they depend others to perform There is a well defined line of demarcation between the genuine intellect-the genius that raises a man legitimately above the plane of physical labor-and the abstract knowledge acquired through the roptine of the schools, and the time has come when this line should be snarp-

ly drawn are content to labor, has become in- goods at a special bargain

adequate to the support of the proportion who are subsisting upon it, and this, in connection with the extortions of monopolies, and the enor mous cost of Government, is the true explanation of the present troubles between labor and capital. Labor is over-burdened, and over-drawn upon It is paid from the profits which itself creates, and the sufficienty of the share is receives of its own carnings depends upon the number of its beneficiaries, and the justice with which

the dividend is rate By a vote of 19 to 34 the Senate on Monday adopted t e sugar chedule The repeal of the bounty is to take effect simultaneously with the passage of the bill it is estimated that by this action the Prust will lose by this action the trust win took suppose of them have used as an ago suppose when they should really begin to ensure the further fund does not ill vis win the property of the further spine is one of the property of the spine is one of the spine battle. The scandal as 150 g out of his efforts to bribe legislature has re he represents. This is retributive justice—Communic Post

Domoers of Boiler Inspection

Sudden Changes of Temperature Bring on Paralysis of the Spine.

Terrible Experience of a Jorsey City Boiler Inspector, Stricken Down and Froncunced Inquiable by the Most Eminent Specialists Yet He

(From the Newark Brening News)

There are but few classes of men in the United States whose calling subjects them to sudden changes of temperature that at times will vary n degrees that reach into the hun-reds boiler inspectors, probably have more of this to contend with than any other single class of men in the country and they, sooner or later, feel the offects of it and not a small number of them have died at an age

battle. The scandal a barg out of fruits of an expert knowledge of his efforts to bribe legislature has reacted upon himself and the interests of the represents. This is retributed to go into a boiler room and inspect the boilers while the temperature is crowding the mercury up into the When his work is done, lican party has oppressed for twenty he puts on his coat and goes out in the cold. The result is easily imag-

For the past seventeen years, Mi John Bird, one of the best known trial jury Although only 12 names men of Jersey City, has been in 10- were called, 13 mon occupied seals in spector for the Hartford Steam Boil the box er Insurance Company About two jears ago he began to suffer with over the list again Eich jurorrespondmore intense. Unally he became so was the same. Thirteen stood up oud that he could scarcely use his limbs at all

He called in Dr. Varick, of Jersey City, who after a thorough examina tion refused point blank to attend him. He advised Mr. Bird to conthis subway are already made. It will be 10 000 feet long and will partly pass under the listoric fremont street. It will be had throughout with white por celum thes and will be ventilated by great machine blowers. It will cost corning told Mi. End that the respectively great machine blowers. It will cost corning told Mi. End that the sunce which the supposition of the su was afflicted and that science could not help him

The history of the case is a re

markable one and is best told in Mi Birds own language. To a reporter who called at his bandsomely fur-

who called at his handsomely fur-nished home at 165. Whiton street Jersy City, Mr. Bird said "When I first decided to dector for my trouble, I learned that I had and longer than the Brooklyn bridge, it look who refused to the it me, and ad vised me to go to Pref as that bridge did for steel and material are cheapen now than they were when Roebling specified East river.

Another large confinence in a project is After this I went to Protessor Thompson, who treated me with electricity and compressed air. Some times I took as much as fourteen pounds and a half in three hours There are very few men that can stand the compressed are for more

* But for all that I did not immove nuch, and I began to lose all hope A number of friends of mine in New ork and Newark asked me repeated I of and work asked me repeated is why I did not try. Dr. Williams' Link Pills for Pale People. They kept it it so persitently that finally I decided to give them a trial.

Well, sir do you know that they have done me more good than all the professive and decress and the world.

alot and conduit similar to those of a professors and doctors in the world I am a hundred per cent better now than when I first began taking them Lam better in health ann in soint and there is no longer that old Then when New York city gots another bridge built across East river to der the care of a physician 1 am New Yorkers will begin to have room to able and I could not feel it at all Dr Williams' Pink Pills are the best thing I have ever heard of and I am

Highest of all in Leavening Power .- U. S. Gov't Report, Aug. 17, 1859

Sal Baking Powder ABSOLUTELY PURE

THE WORLD'S BREAD EATERS.

Some Queer Facts Concerning the Diet of Inridus Civilized Countries Reports recently received from several American consuls give some interesting data in regard to the bread consumers of the world. They show that while a P stuguese wornes through a year with an average bread supply of 176 pounds—about half a pount a day—a SI amaid, Just across the binder, requires 413 pounds

per annum, and Spain cannot be regarded as a wheat growing country,

In Hungny where waving fields of grain are common in the wheat growing se ison, 361 pounds a year on an average supply a native, while an Austrian, who also raises more or less wheat, gots along with 187 pounds required by a German in a year, 165 pounds by a Dane, while the Rus sians the greatest wheatgrowers in Europe, ea but 99 pounds per an num per capita. A native of Belgium consumes 578 pounds and of America 35' nounds, while the Swit zer cats 448 pounds per unnum, an Italian 310 % Dutchman 253, an Eng-

lishman 352 pounds

The greatest flom eater in the world is the Ironrhman He con sumas nearly 2 pounds a day, or 705 pounds in a year. This enormous quantity to isumed by a Frenchinan when compared with the 56 pounds per annum which a Scandinavian re quires, reveres the old theory that turnatic influences, have more to do with the derinds of nature than education In the extreme northern climates, where cold is severe, flour does not sam to be the favorite article of food. There is not so much combustion in it as in oils and animal foot. The Laplander, who eats no flour at all, is sometimes known to cer sume 7 pounds of whale or seal blubber at one meal A Russian, who only eats 99 pounds in a year of the flour he raises, is popularly supposed to make up the deficiency by wallowing tallow candles and any kn d of rich, faity substance that happers to come to his hopper, no matter v but the flavor —Cincinnati Times star

Horses' ceth Versus Shalle Trees. Certainly great attention has been given to the planting of trees for or-namentation of the streets of Washington Then after all was done it was necessary to wait for time to give them growth and symmetry, until now many of them are things of beauty, and the shade of their spreading lianches a perpetual joy If one has in his nature so little which is akin to the sentiment that cries 'Woodmin, spare that tree" that he had us the horse he has in his care to gnaw and margarably migure thees, as is requently done, it seems to me he should be taught the whole some preed its of a law outraged by such shameful disregard.

Very iccontly I saw a man, by means of a hitchweight, fasten his horse up to a beautiful tree-one of a number that lined the street and embellished the homes which they severally fronted Very naturally the animal touco commented gnaw ing and it took but a few minutes to undo and defeat the work that had cost care, money and patient wait ing The hither to smooth trunk was left marred and wounded Of course the leaves villuot atonce wither and fell, be the tree, which was lately an object of line has nevertheless received its deathblow, and instead of remaining a delight to the eye be comes unsughtly to the and of its days which are numbered by lingering but mevitable decay -Washing-

ton Sim __ Men Not Lorent. I see picking up an English paper, that Profes or Huyley has been remuking upon the so called equality of men Surely it is a most excel lent thing to remind ourselves from time to time that man is not equal to his brother man and never will be. that taking any one faculty—say, that of intellectual vision or breadth or reasoning powers-no two men are equal Again, in physical powers no two men are equal One might as well claum equal stature for all men And yet in this republic they crive 'Libert's, Egalite, Frater inte' on every chunch front I should like to strike out the first two words and to rotain the third which involves the first and decreated. volves the first and does not lay claim to the second

Catchwords are hard to kill, jet they are mostly nonsense Meantime the practical refutation of the alleged equality he, in the fact that the would is always looking eagerly for a leader—some one to whom it is not equal at all, but lower -- Walter Be sant in Queen

Its P that the fascription. One of the best specumens of Confederate bark notes is owned by a merchant of Delanco, N. J., who

picked it up some years ago. It is printed on piper of the finest of test finish, and though issued by the St John's bank of Jacksonville in the first year of the rebellion is still in an excellent state of preservation The most curious and puthetic part of this piece of extinct currency is an indorsoment in ink on the back, still legible though a bit faded. It is in a strong in isculine h ind, showing a business in a ring and some culture. The indosement reads—The last V of \$50,000, and all spant for whicky Dec. 15, 1501."—Philadelphia Record. The Six Finger Club.

The latest thing out in the way of clubs bears the above title Each member or this particular club must have at least six fingers on one hand An elaborate report drawn up by the secretary shows that there are 2,178 persons in the world with six fingers to each hand and 431 with seven fingers One individual, indeed, is the proud possessor of eight fingers to one and -Lyon (France) Repub-A Difference.

"I am willing to split haus with t my opponent all day if he insists on it," said a very distinguished lawyer, in a speech at the bar
"Split that, then," said the oppo-

Only 143 pounds of flour are next rulling a coarse specimen from his own head and extending it 'May it please the court, I didn't say bi siles '-London Quiver

Woman's Opportunity

The woman who labors in the kitchen among pots and pans, with baking powder, sugar and eggs, is a scientist and has chemistry at her inger ends. If she produces a new dish that is appetizing, economical and digestible she has added so nauch to the sum of human happiness. If she makes a deft, and drinty house maid, she raises by so much the posi-tion which she graces. It she teaches a little child who is in her charge to be honest, pure-minded and useful suc is helping to year a good criticen There is not a calling or profession open to women in which they have mot an opportunity to elevate and improve mankind. How many uplift instead of drag down. It is a very serious question

The Fur is dead Long live the Fair! Let us carry in our minds all the glor; that was of Greece and the grandeur that wis of Rome as we saw it in the cays of its existence if we will, but when we are passed away what avails our recolled tions. Let us do better. Artists have captured all this fugi tive splender with trusty camera and practiced pencil, and many splendid series of views of its art and architecture, its landscapes and waterways its exhibit and curiosities are the result-and the very best result. It is the Fair over again for ourselves and our children and their children-to the end of time if they but preserve it. Let us take the initial step and have the parts of the Art Port'olios bound, that none may be
